

INVITATIONS FROM NON-IEEE ENTITIES:

Invitations to our distinguished lecturers from other than IEEE groups are also welcome although travel expenses are only covered in special circumstances.

HOW TO PROCEED:

On the web site, iee.org/npsc, you will find the list of the current pool of speakers, including at least two representatives from each of our technical communities. These lectures can be tailored to the level of a particular audience. All speakers have been selected for their ability to communicate their knowledge with skill and enthusiasm.

To invite a specific lecturer, please contact that lecturer directly using the email links provided on the webpage. If there is flexibility in the date then sometimes the lecturer can fit the presentation in with other travel to the area.

For more general information, please contact the NPSS Distinguished Lecturer Coordinator, through iee.org/npsc.

NPSS LOCAL ACTIVITIES AND DISTINGUISHED LECTURERS

NPSS Chapters

Where there are a sufficient number of NPSS members interested in organizing and attending local meetings, that group can petition to form a chapter under the local IEEE Section. There is help available from the Chapter Chairman of NPSS and financial help to deal with expenses of running meetings. For the most up-to-date list of chapters please see our web site iee.org/npss.

If you live near an existing NPSS Chapter, check the meetings and consider volunteering to help with running the Chapter.

NPSS Distinguished Lecturers

ARE YOU INVOLVED IN LOCAL IEEE ACTIVITIES?

Would your group be interested in hearing lectures by distinguished NPSS speakers providing overviews of state-of-the-art research on a wide range of topics selected from all of the technical fields covered by the Nuclear and Plasma Sciences Society?

If so, the NPSS Distinguished Lecturer program may have something of interest for you. The NPSS maintains a panel of distinguished lecturers, all experts in their fields, who have agreed to travel to give lectures from time to time to interested groups. This panel is constantly reviewed and new distinguished lecturers sought to fill in technical and geographic gaps.

The NPSS will provide lecturers for local IEEE activities, including NPSS Chapter meetings, IEEE Section meetings, and IEEE Student Branch meetings, at no cost to the local organization sponsoring the lecture—the NPSS will pay the transportation and lodging costs of the speaker. In addition, these lectures can be tailored to the needs and interests of the audience. The lectures are also available to other IEEE entities as well as colleges and universities.
