

IEEE Nuclear and Plasma Sciences Society

NOMINATION FORM FOR THE ANNUAL RADIATION EFFECTS AWARD

Purpose of the Award:

The purpose of the award is to recognize members of the Radiation Effects Community who have had a sustained history of outstanding and innovative *technical contributions* and/or *leadership contributions* to the Radiation Effects Community but who may not have been honored by receiving other IEEE awards such as a Merit Award, the Shea Award, or an IEEE Medal. It is also the intent of the RESG to give special consideration for this award to members of the community who are IEEE/NPSS members.

Basis of the Award:

A. A substantial, long-term history of technical contributions that have had major impact on the Radiation Effects Community. Examples include: benchmark work that initiated major research and development activities or a major body of work that provided a solution to a widely recognized problem in radiation effects.

B. A demonstrated long-term history of outstanding and innovative leadership contributions in support of the Radiation Effects Community. Examples include: initiation or development of innovative approaches for promoting cooperation and exchange of technical information among members or outstanding leadership in support of the professional development of the members of the Radiation Effects Community.
