2117 Partial Discharge Traces in a String of Air Bubbles Floating in Transformer Oil ..... D. R. Subin and Q. Z. Alqahtani

2124 Numerical Investigation of Resonant Electron Heating and Penetration of Magnetospheric Plasma into the Dayside Ionosphere ..... M. H. M. Fozun, F. Wang, F. Sun, H. Sun, and A. Qiu

2134 Optimization of Active Balancing Mode and Its Parameter Adaptability in Separable Power Split ..... Y. Wang, S. H. Wang, H. M. Wang, Y. G. Wang, and J. G. Wang

2144 Electronic Surface Modes Under Exchange-Correlation Effects in Kane Semiconductors ..... J. H. Park, J. H. Park, and J. H. Park

2154 Model of Ionospheric Resonance in Cylindrical Coordinates and Its Application to the Study of Ionospheric Resonance ..... J. H. Park, J. H. Park, and J. H. Park

2166 Theory for Vortexlike Structures in Plasma With Current-Carrying Structures in Plasmas ..... J. H. Park, J. H. Park, and J. H. Park

2176 Microwave Generation and Microwave-Plasma Interaction ..... J. H. Park, J. H. Park, and J. H. Park

2186 Simulation of Ongoing Breakdowns Induced by Discharge Propagation in a Plasma Channel ..... J. H. Park, J. H. Park, and J. H. Park

2196 Performance Improvement and System Design in a Dual-Wavelength LDR ..... J. H. Park, J. H. Park, and J. H. Park

2202 ..... J. H. Park, J. H. Park, and J. H. Park
