

Development of a Semiconductor Opening Switch at Soreq NRC

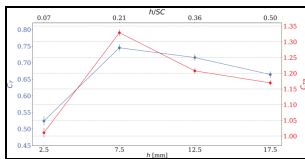

by Amit S. Kesar, Arie Raizman, Or Trachtenberg, Doron Cohen-Elias, Michael Wolf, and Oleg Belozеров

[Read More](#)

Performance Enhancement of EAD Thrusters With Nonuniform Emitters Array

by Davide Usuelli, Raffaello Terenzi, Stefano Trovato, and Marco Belan

IEEE TRANSACTIONS ON
PLASMA
SCIENCE
A PUBLICATION OF THE IEEE NUCLEAR AND PLASMA SCIENCES SOCIETY
NOVEMBER 2024 VOLUME 52 NUMBER 11 ITPSBD (ISSN 0093-3813)

NUCLEAR FUSION
Beam Propagation in Fully and Partially Ionized Plasmas 1504
Shock Waves of the Electric Field—Part 2: Experimental Studies of Voids and Plasma Nozzles in Plasma With Current 1510
Effects of Local Thermal Nonuniformities and Magnetic Fields on the Stability of Rotating Partially Ionized Plasmas 1515
Detailed Flow Simulations 1520

Microarray Generation and Microarray-Plasma Interaction
Characterization of Plasma Sheath Distribution and Diagnostic Capabilities of Partially Ionized Plasmas 1527
Electron Beam Source Accelerating Sheath Length on the Expansion Characteristics of Partially Ionized Plasmas 1535
Infrared, Colorimetric, and Biological Characterization of Plasmas 1540

Microarray Generation and Microarray-Plasma Interaction
Investigation of Atmospheric Pressure Plasma Treatment on PCB Surface Etching 1545
Modular Layer Based SPB Resistor for Microstructure Fabrication 1550
Research on the Effect of Partial Discharge Plasma With $\text{p-C}_6\text{H}_6$ on Water Treatment 1555
Plasma Power Source and Technology 1560
Study on the Structure Selection Reliability Between Modified Layer and Self-Healing Morphology in Modified Film 1565
